Oval - Insert Size

2.176" x 1.060"
55.27mm x 26.93mm

With the design work already done, you will quickly be on your way to creating attractive badge inserts. It's easy. Free downloadable CorelDraw™ 8 badge insert files for each size of *The Identifiers* are available at www.rowmark.com.

The ready-to-use dimensions provided in the downloadable files apply to laser engraving systems. For rotary engravers, simply adjust the dimensions to compensate for your cutter's diameter.

All badge holders accept engraving materials with a thickness up to 1/16" (1.6mm), with the exception of the "Large" badge holder, which accepts a thickness up to 1/8" (3.0mm).

Pre-cut sublimatable inserts are available for the "Large" badge holder (item # 5621 gloss & # 5628 matte) or cut your own to fit the other badge sizes.

The
IDENTIFIERS®

A stylish impression... so easily achieved.

The Identifiers make it simple to turn ordinary personal identification into name badges with distinctive flair!

Lightweight and durable, *The Identifiers* are available in five popular sizes and three classic colors. Any Rowmark® rotary or laser engravable material can be inserted into the badge holders.

All of *The Identifiers* badge holders accept standard pin and magnet findings.

Sample badge produced with Identifier #076400 in combination with Rowmark's LaserMax®.
